## Dodge NSTUC107RE Take-Up Ball Bearing

Bearing No. NSTUC107RE

|                                 |                                  |
|---------------------------------|----------------------------------|
| d                               | 1.4375 in                        |
| overall height:                 | 6-1/4 in                         |
| slot spacing:                   | 5.1300 in                        |
| lubrication type:               | Lubrication Fitting              |
| slot width:                     | 0.5000 in                        |
| maximum rpm:                    | 3000 RPM                         |
| unit type:                      | Side Mount                       |
| expansion type:                 | Non-Expansion Bearing<br>(Fixed) |
| housing material:               | Cast Iron                        |
| B                               | 6-1/4 in                         |
| locking device:                 | Concentric Collar                |
| rod hole diameter:              | 1 in                             |
| seal type:                      | Labyrinth                        |
| series:                         | Type C                           |
| finish/coating:                 | Uncoated                         |
| manufacturer catalog<br>number: | 036116                           |
| overall length:                 | 5.63 in                          |
